

Architect (Next Design) Category C Review Fee Schedule

Review Period (6-7 working days)

WORK DESCRIPTION	DESIGN REVIEW	SITE INSPECTIONS
1. Relocation of any plumbing and drain lines away from their original position.	\$290	\$250
2. Relocation of, or modification to, common drain, plumbing or water lines concealed within a common element.	\$240	\$240
3. Air conditioners may be installed only in the locations provided for on the original plan of the building, i.e. in the lower section of the lanai window. It is recommended that air conditioning units not exceed a total current-draw of 16 amps at 120 volts or 8 amps at 240 volts. It is also recommended that the owner employ a licensed electrical contractor to complete a panel board maintenance. Other types or locations of installation must be by Board approval	\$275	\$200
4. Relocation of or modification to electrical lines, junction boxes, apartment's electrical panel and any other electrical component concealed within a common element.	\$275	\$250
5. Replacement of an existing bathtub or shower with a bathtub or shower of larger dimensions and/or volume.	\$290	\$240
6. Relocation of a toilet, sink or lavatory.	\$240	\$240
7. Alteration or modification to any load bearing wall. A plan stamped and signed by a licensed structural engineer will also be required. The Board reserves the right to retain a structural engineer on behalf of the association, at the owner's expense, if the apartment owner proposes to alter or modify any load bearing wall.	\$600	\$500
8. Popcorn ceiling material: An owner planning any renovations that might disturb the ceiling	\$190	\$180

<p>materials must comply strictly with federal Environmental Protection Agency, the Occupational Safety and Health Administration, and State Health Department regulations. A licensed company certified to properly remove and dispose of suspected asbestos containing material must do all removal of ceiling materials. The popcorn ceiling material in the apartments has a high probability of containing asbestos fibers over current EPA allowable limits because the building was built prior to any "standards" being established. The original ceilings are believed to be not hazardous if left undisturbed. It is not normally recommended or necessary to remove these ceilings, but owners and residents should contact their own professional for advice if desired.</p>		
<p>9. Replacement of any windows are to conform with 1717 Ala Wai Condominium Building Window and Sliding Door Replacement Guidelines dated July 2016.</p>	<p>\$250</p>	<p>\$240</p>

The rates above apply if Design Review by Next Design is desired. Additional design review fees will apply when additional reviews are required due to changes, inadequate submittals or non-conforming construction.

Maintenance Modification and Renovation Application for Approval to Renovate or Remodel Category C

Apartment #: _____

Please print or type the following:

Owner's Name: _____ Owner Telephone: _____

Architect/Designer: _____ Owner Email: _____

Submitted by: _____

Submittal Date: _____

Owners may make desired modification, alteration, renovation, or remodeling of apartments only after the review and processing of this application. If an emergency repair is needed, contact the Manager immediately.

Category C: Plan of work requires review by the Manager and a third-party consultant designated by the 1717 Ala Wai Board of Directors (the "Board") (currently Next Design) and approval by the Honolulu building Permitting and 2 members of the Board, before work may commence.

Description of Work:

Building permit required? ____ YES, ____ NO If yes, have you applied? ____ YES, ____ NO

Estimated start date: _____ Estimated completion date: _____

The Manager and the third-party consultant shall be notified to make inspections prior to, during, and after the work is complete.

Initial

_____ Inspection prior to work.

_____ Inspection during work.

_____ Inspection at completion

_____ Pictures attached.

Will any of the planned modifications include changes to existing:

Plumbing: _____ YES _____ NO Electrical: _____ YES _____ NO
 Mechanical: _____ YES _____ NO Structural: _____ YES _____ NO

If any of the above questions are answered "YES," you will be required to submit plans and specifications prepared by a registered architect (or professional registered engineer if permitted by the Board showing details of the proposed work. You are also required to submit the name of the licensed contractor(s) you intend to employ for the work.

Even if you answered "NO" to each question, the Board may require plans and specifications and other information from you before deciding upon your application.

SUBMISSION CHECKLIST:

_____ Application

_____ The contractor shall provide the architect with proof of insurance and a schedule of the work. The contractor shall inform the Manager of any changes to the schedule. An inspection by the Manager may be required.

_____ Design review fee (if required)

_____ Plan and specifications for Category B and C work (two sets drawn by registered architect or engineer)

_____ Building permits or building permit application number (if required)

Notice of approval to proceed with the work will come from the architect, who will also inspect the work upon completion. See Section V. Procedures for Approval, § B (3) of the 1717 Ala Wai Maintenance, Modification and Renovation Policy Manual (Revised June 2025) (the "MMR Manual") for details.

I/We, the undersigned, hereby request that the Board approve the alterations and/or additions described above and on any accompanying plans, specifications, or drawings. I/We hereby acknowledge receipt of a copy of the MMR Manual. I/We acknowledge and agree that any approval given by the Board shall be conditioned upon all work conforming to all applicable building and zoning laws, ordinances, and rules and regulations and all other conditions established by the Board. I/We agree to periodic inspections during the renovation work by the Manager and/or representatives of the Board. I/We agree that all noise generating work shall be accomplished during normal working hours, which are Monday through Saturday from 8:00 a.m. to 5:00 p.m. only. No work on Sundays and state and federal Holidays. I/We understand that no work is to be done in the common areas and further agree to pay for the repair of any damage or the cleaning of the common areas needed as a result of this renovation and/or remodeling activity.

Category C

Maintenance, modification and renovation work requiring Board approval and building permit.

The owner shall submit plans prepared by a licensed architect and/or engineer and obtain Board approval prior to starting construction work. Owners must coordinate with the Manager for elevator use, work hours, and any required shut-offs of water or electricity. The Manager and/or the on-duty security officer should be informed of any work that involves outside workmen to alert management of non-residents in the building. In some instances, the proposed site and, later, the proposed work may require some oversight by the president and/or the Manager.

The Manager cannot grant any variances from the rules of the provisions of the governing documents. All modification requests must be in writing. Documentation (i.e., description of work, sketches or plans, manufacturers' catalog cuts and product documentation, etc.) of the proposed work and materials must be presented to the Manager. Drawings of your unit may be available at the request of the Manager at: (808) 946-9160.

Owners are required to adhere to the insurance requirements outlined in "Exhibit 1 – Vendor Insurance Requirements" on page 32 of this MMR Manual in their contracts with contractors and subcontractors.

Category C includes but is not limited to:

1. Relocation of any plumbing and drain lines away from their original position.
2. Relocation of, or modification to, common drain, plumbing or water lines concealed within a common element.
3. Air conditioners may be installed only in the locations provided for on the original plan of the building, i.e. in the lower section of the lanai window. It is recommended that air conditioning units not exceed a total current-draw of 16 amps at 120 volts or 8 amps at 240 volts. It is also recommended that the owner employ a licensed electrical contractor to complete a panel board maintenance. Other types or locations of installation must be by Board approval.
4. Relocation of or modification to electrical lines, junction boxes, apartment's electrical panel and any other electrical component concealed within a common element.
5. Replacement of an existing bathtub or shower with a bathtub or shower of larger dimensions and/or volume.

6. Relocation of a toilet, sink or lavatory.
7. Alteration or modification to any load bearing wall. A plan stamped and signed by a licensed structural engineer will also be required. The Board reserves the right to retain a structural engineer on behalf of the association, at the owner's expense, if the apartment owner proposes to alter or modify any load bearing wall.
8. Popcorn ceiling material: An owner planning any renovations that might disturb the ceiling materials must comply strictly with the federal Environmental Protection Agency, the Occupational Safety and Health Administration, and State Health Department regulations. A licensed company certified to properly remove and dispose of suspected asbestos containing material must do all removal of ceiling materials. The popcorn ceiling material in the apartments has a high probability of containing asbestos fibers over current EPA allowable limits because the building was built prior to any "standards" being established. The original ceilings are believed to be not hazardous if left undisturbed. It is not normally recommended or necessary to remove these ceilings, but owners and residents should contact their own professional for advice if desired.
9. Replacement of any windows are to conform with 1717 Ala Wai Condominium Building Window and Sliding Door Replacement Guidelines dated July 2016.

Owners may be required to provide an Indemnification Agreement in the form requested by the Association and such agreement may be recorded in the State of Hawaii Bureau of Conveyances or Land Court as appropriate. A sample of such Indemnification Agreement is attached as Exhibit 3 to the MMR but such sample is subject to amendment by the Association.

FAIR HOUSING

Notwithstanding anything to the contrary herein and subject to reasonable administrative requirements as determined by the Board, handicapped residents, after complying with the application procedure, shall:

Be permitted to make reasonable modifications to their apartments and/or the common elements, at their expense (including without limitation the cost of obtaining bonds required by the Declaration or the Bylaws), if such modifications are necessary to enable them to use and enjoy their apartments and/or the common elements, as the case may be; and

Be allowed reasonable exemptions from the Declarations, Bylaws, the House Rules, and policies and procedures of the Association when necessary to enable them to use and enjoy their apartments and /or the common elements, as the case may be.
